

Outcast: Daughter of The Moon (The Children of The Sun & Moon Series Book 1) By AmeFrost Byte I was interested in the epilouge and hope there is a sequel to this book, **Outcast forever** The justifications for his horrible and abusive actions are not ok: **Outcast mc** If I knew that this was a Bully book I would not have chosen it, **Outcast of the sulphurous seas** He ignored her when she told him no instead marking her for life. **Outcasty phish** If he had died a horrible death in this book I would have given this book more stars, **Outcast band** What made me mad is that although she was killed brutally she takes up for her murderer. **Outcast boats** I thought in the two years she was gone that she would lose some of her extreme good girl demeanor: **Outcast coupon code** She is still more than willing to continue being a victim and blaming it on herself. **Book outcast** Yes I consider being ok with your brother biting someone against their will and then leaving the abuse victim alone in the room with them the ultimate betrayal: **Outcast book** This book teaches us that always taking the high road leads to nothing but repeated pain death and forced mate to a despicable person, **Outcast of the sulphurous seas** Kindle Edition Outcast: Daughter of The Moon (The Children of The Sun & Moon Series Book 1)

[1]

I liked it. Mostly the world building. Falcon needs a redemption arch though as does his mate. Kindle Edition I hate Falcon. He repeatedly was verbally abusive to the heroine Kaz. Now Kaz is someone who was rolled with the punches. I loved her in the beginning. That stopped when she came back after death. She is treated like crap by everyone but Mun. Even so she still loves them all. She is bitten against her will and she just rolls it. She doesn't. It is unbelievable. There is nothing good that happens in her life. NOTHING. Everyone including Roj betrays her
