

Zlaczni pokusa By Cora Reilly Who could have even thought that after reading more than a page about their father? They all say how cruel he is and then they hope he'll be nice? Come on! And the huge love story that started back then when Lily fell from Romero when she was like 14- years-old or whatever? Nope.

Flirting girl gone?" Romero can't resist the older Lily and the two fall in love and her virtue is lost to this man she loves. me watching Lily and Romero: me watching Mateo and Gianna: me watching Luca and Aria: and sorry no i will not comment further 838178316X 3 Refusal to Conform Stars Bound by Temptation surprised me in a good but also in a disappointing way. Tropes-Mafia Princess/Bodyguard-Age Gap-Crush To Love-Sunshine/Grumpy Note: No cheating HFN Violence included! Highly Recommended!!! Enjoy!! 838178316X Scuderi sisters know better!!! Viva la New York Famiglia!!! Chicago Outfit just sucks!!! I will explain you right away what i mean with the above sentences. What were you thinking man when you did what you did to your youngest daughter??? And what the hell have you done to poor little Fabiano???? Phew!!! I'm so pissed off with him and the whole situation!!! The Chicago Outfit's members are monsters. Hahaha!!!) Maybe the difference in this book came because in the previous two stories there were forced marriages but in this one was a willing love that everyone else around them could not accept it and they have to fight with different obstacles: 838178316X I'd hoped I could marry for love now that my sisters had already been married off for tactical reasons. Why should Lily not be allowed to marry someone she wants?" And I'm done with this series: How come that everyone suddenly turned so stupid? Like with the hope she'll be able to marry for love. Lily's father has other plans for his last unmarried daughter and another mafia wedding will take place and our Lily will have to marry a much older disgusting man: Lily is torn between running away with Romero or assuring her sisters' and his safety: "Could I risk everyone's happiness for my own?" This story was well paced as the author kindly refreshed my not so great memory, The ending was so exciting and action packed leaving me a bit nervous as to what will come next. My favorite character is Dante and I would hate to see Luca.

There were horrifying scenes too, I know most people are disturbed by the fact that Lily crushed on Romero from a very young age and she was just a horny kid. Lily was in ok age to have a crush seeing that I was actually proposed with a gummy bear ring by my present-fiance when we were just 6, Come on it's not like we were not crushing hard on 1D's and Justin Bieber (I personally hate him tho) and all when we were young. like what? Do you want her to fall in love with that 100 year old limp dick? It's not like she went whoring around.

Even his self, He was just a soldier and a girl like her wasn't made for a simple soldier. Then he had

made an oath to the Famiglia and he had to keep it, And finally if he let himself free to be with her that could mean war between the two mobster families: How can they resist to each other???Which will be the consequences if they let themselves to fall for each other???I really loved that book, I liked the fact that i saw this young girl to turned out a lovely woman: She had to bare a lot of nasty things.

I don't even know how to feel about this series at this point: Last time I read it was back in 2021 and I stopped at book 3 since those characters irritated me so much, I was expecting this to be a bit better (because of the tropes) but it wasn't all that great for me: I could not tell you why they wanted to be together and thought their relationship was worth risking war for: I'm mainly getting through it so I can get to the Camorra Chronicles but I'm having doubts at this point: But I really want to see the father die so maybe I should continue on with it: This book made me bloodthirsty there was nothing between them felt forced and stupid. He got the only Scuderi girl that is not absolutely annoying and does not act on pure emotions: Except for some dumb decisions like helping Gianna run and then hiding Lily's secret: And after three books where Luca was painted as monster etc: he should have just put a bullet in his head and shipped Lily off to her father: Same with I won't go to war with Outfit because of this and then suddenly Fine the war is happening no matter what: Like the girl Rocco is going to marry goes from being named Ramona to Maria: Nothing makes sense and the characters just get more annoying with each other book in the series. 838178316X You can preorder it on Amazon !!!And you can also pre-order it on iTunes! 838178316X [reread: 12/12/2021] Lily and Romero are the best couple in this series. so with as much disrespect as possible fuck Aria and Gianna: I have been looking forward to Lilianna and Romero's story since I started this series: Because who falls in love at the tender age of 14 and gets her wish? It's so damn romantic, Somehow I knew he was the one the person I was meant to be with. Lily is practically mafia royalty whereas Romero is merely a soldier. And it wasn't love at first sight because he was already a man when Lily first laid eyes on him, "If someone found us like this they might get the wrong idea: An idea that could cost me my life and you your reputation, One where life is too short and the need to live in the moment: Getting involved with Romero is forbidden but it doesn't stop them: Except their trust is cut short when Lily's villainous father arranges a marriage for her: And holy shit was that creepy to read...The storyline itself was great, Unfortunately it lacked the depth and magic I have come to expect from Cora Reilly. I kind of felt I was reading this book on autopilot with no real emotion: Im a lover of good food wine and books and Im hopelessly addicted to bad boys (in books). I'm a lover of good food wine and books and I'm hopelessly addicted to bad boys (in books). אחרי שאחיותיה נישאו מסיבות טקטיות היא קיוותה שירשו לה לבחור את בעלה לעתיד בעצמה: רומרו קנסיו התעלם במפגן מפלרטוטיה של ליליאנה: גילה הצעיר ומעמדה החברתי סימנו אותה כמישהי שהיא מחוץ לתחום עבורו, אך גם Zlaczeni pokusa Fans of this series are well aware of young Lilianna's crush on her sister's bodyguard Romero. Romero is Luca's solidier any relationship with him is totally unacceptable: Somehow I knew he was the one the person I was meant to be with, Lily faces a lot of loss in this book and finds that as the years go by her crush is no longer one sided: "Where had the blushing Matteo and Romero brought down by my favorite mob head, On the other hand I can't see Dante agreeing blindly to all the insanity that is Scuderi!! "Love was worth every risk: I've said after books two and three that I wouldn't continue: I've been so in the mood for some mafia awesomeness the last couple months and these feel thisclose to being great. But alas I think I am calling it quits on this series - for REAL this time, I have no interest in the blurb for the next book and the book after that sounds like a rehashing of the first 1-4 books from idiotic Aria's perspective - no thanks, I have heard good things about the The Camorra Chronicles : So maybe those will have whatever these seem to be missing for me, 838178316X The fourth book in the 'Born in Blood Mafia Chronicles' series 'Bound in Temptation' is the story of Lilianna and Romero. If you've read the books in this series in order you probably remember Lily as Aria and Gianna's younger sister. You probably also remember the crush that she's always had on Romero the older soldier that is Aria's bodyguard and one of Luca's most trusted men, Lilianna is growing up and is no longer the child that Romero

remembers, Despite his best attempts he can no longer ignore the beautiful young lady that she has become, She hasn't grown out of her infatuation with Romero over the years she's only become more determined to have him, Initially there is a lot of push and pull between Lily and Romero: He keeps turning her down while he secretly fantasizes about what it would be like to have her: He's never wanted anything other than being a loyal soldier until Lily, I love a forbidden love story so this one was right up my alley: Add in a dangerous guy with serious bad-boy appeal and I'm hooked! It's no wonder that I loved Lily and Romero's story, While I don't want to give too much away I will say that Lily surprised me with her strength, As the youngest sister she was always portrayed as the silly little girl that was left out of the grown-up conversations before: While Aria seemed more submissive and happy to be the good little wife to Luca Gianna wasn't afraid to stir things up on behalf of her little sister, I absolutely loved Gianna in this book! Despite the fact that the story was predictable and like many other mafia romances out there I didn't care, The only downside to this story was that there was a large amount of grammatical errors, Incorrect word usage misspellings and other elementary grammar oversights were pretty common. For such a popular series and author I'd expect the editing to be much better, With war on the horizon for the New York and Chicago organizations I'm curious to see where the next book in the series will lead: com 838178316X "You only have this one life Lily: I don't want you to end like me to look back at a life full of missed opportunities and lost dreams: You are braver than me brave enough to fight for your happiness: " 5 Cosa Nostra First stars!!! Liliana the third wheel in her family always the third best always the one who suffer always the one who sacrifice: Not long ago she was sweet and innocent but now she's grown into a mature strong young woman who knows her duty. Romero a loyal faithful soldier who always put the Outfit first. He was always aware of the young mafia princess's crush on him and ignored since he's a lot older and she was too young. But now seeing her all grown up and beautiful his heart that has been shut for so long start to open, Can a love like theirs survive this cruel world? "Don't let anyone stop you from achieving happiness, " Ok I know most people didn't like this much because this was too cheesy or whatever the fuck. But hey! Mafia romance with a bit of cheese is kinda ok. She just sneaked into the room of the man she loved a man who was attracted to her too. Ok maybe she was a horny kid but with the story soon enough she became a strong woman with balls. She went through heartache alone sacrificed herself for her family was strong enough to break the union of a man who'd treat her wrong and fought for her love. Regarding how cold he was in the previous books and now seeing him sweet and kind to Lily in this I melted, After all murderer or mobster he's a human being too! I loved his understanding possessiveness and most of all his patience: He didn't stray but stayed true to Lily even when he saw her marrying another man: The connection chemistry between the characters were really good. All of them were born in blood but New York's mobsters are more humanly creatures. Yes they are killing too but when it's absolutely necessary!!! Who am i kidding??? Hahaha. The Chicago outfit in every new book just give me reasons to hate them more than the previous books!!! And especially Rocco Scuderi, He is the most disgusting person and i thought that he was cruel with Aria and then with Gianna: We all know that Liliana had a crush on Romero since the first moment that she laid her eyes on him when she was just fourteen years old: Did you knew that??? Because i thought that he liked her also. The years that they follow their first meeting Liliana tried to seduced him in many occasions with no succession, Yes the girl was beautiful but he knew his position and he had an oath to keep, When Liliana became eighteen a tragic incident messed up all her life. A life that before two years with Gianna's run away became like a prison. You see her father wanted to keep her untouched and pure for her future husband: So that devastating incident made Lily to meet Romero for once again and this time something had changed: Suddenly he saw in front of him not an adorable young girl but a beautiful woman. He lost it!!! Everything that he fought for all of his life was about to destroyed!!! Everyone around him warned him to stay away from her. I won't lie to you in some point she made me furious, She loved Romero so much and all her actions were saying it out loud, And believe me when i'm saying that this statement is huge for me because i love desperately Luca but i think that Romero was better than him. The only thing that i can say is that this series is one of my favorite. I can't help

it!!! I'm addicted to those guys!!! I need more and more of them!!! Cora please don't stop writing about them!! Ever!!! 838178316X

Don't mind me. "Gianna and I married for political reasons. I cannot take this any longer. Sorry to say but I disagree. As for her being horny and causing trouble. But the temptation was too big for both of them. I think even more than the previous three. Lily was a good girl with a wild heart. The romance lacked. The chemistry was non-existent. It seems to be getting worse. "Mother told me to be happy shortly before she died. And Romero makes me happy. I want to be with him." I thought that Gianna was dumb but Lily takes the cake. This is just completely ridiculous. Luca actually won the Scuderi lottery. I went against his direct orders after all. That's still a crime." Yes! He went against his boss against direct orders. This makes no sense. Also there are a lot of inconsistencies. That's just sloppy. So no this series is so OVER for me. and Liliana is the superior Scuderi sister too. I'd known it pretty much from the beginning. If there was something like fate then this was it. We knew this was never going to be an easy love match. A crush. Except it was always more to her. It just took a few years before Romero felt it too. "You know" he said in a strangely rough voice. "Initially you think that Lily is the obedient daughter. Except grief and disappointment creates a new perspective. But actions have consequences. I guess you can't love them all. 838178316X I'm an author of romance and new adult novels. אבל חלומות לחוד ומציאות לחוד. I'd known it pretty much from the beginning. If there was something like fate this was it." 838178316X 2.5 Stars Le sigh. I just can't seem to make this series work for me. I want it so bad. Maybe too bad lol. and yet here we are. I have no idea why. HOWEVER. Fingers crossed. She keeps coming on to him. Romero does his best to stay loyal to The Family. Now he's forced to betray his heart or betray his vows. I think you can guess what he'll choose. He is only a man after all. She definitely came into her own in this book. Honestly she was kind of a little bad-ass. Similarly I really came to appreciate Gianna in this book. If it works it works. This book worked for me. I enjoyed every minute and I don't feel guilty for it. It was a bit distracting at times. Otherwise I thoroughly enjoyed this story. It was predictable but entertaining. I was left feeling happy and contented. Check out more of my reviews at www.bookaddictshaven.com. Make the best of it. I wish I had done it and now it's too late. Don't let life pass you by. But then he's just a soldier and she's a princess. But for real tho fucking every man she sees. What I saw in her was her growth throughout the story. When I see her that's what I see. I love Romero too. He is my favourite Made Man in this series. Overall the plot was amazing as usual. They protect their people. Period. But enough with that. I have more juicy things to tell you. What I didn't know is that Romero never got her serious. No my friends! He was seeing her like a child. You see Romero was a good soldier. Not for Lily. Lily always knew that she wanted Romero but for Romero. His Capo his Capo's wife but she was a fighter. but I can't keep it to her. Romero from the other hand was absolutely gorgeous. In every possible way. He was more kind more caring more gentle. (But don't get me wrong!!! I still love Luca more. And what obstacles!!! I almost lost it in some point. My heart was breaking in tiny pieces. My nerves were hanging from a thin thread
