

Fake Notes (Lakeview Prep #2) By Gracie Graham **Fake notebooks for storage** Kindle Edition  
CuteGotta love a fake relationship turned guy falls first! Thorne and Scarlett are a great combo.

## **Fake notes for school**

Now her family's business and Scarlet's college fund are being threatened as Cranky Lady is suing her parents' bakery. **Fake notes to write** This is what brings him and Scarlet face to face as she is the perfect person to pretend to be his fake girlfriend as she is about the only person in the world who won't bend to his every whim as she sees him as an entitled jerk and Hollywood actor. **Fake quotes meme** What will happen though when the time arrives for the pair to go their separate ways? Will Thorne and Scarlet realize that the feelings they both developed are true and real? Find out in Book #2 of Lakeview Prep - another amazing installment in this series and I am now looking forward to reading Book #3 Date Notes when it is released. **Fake quotes maker** Kindle Edition After reading and enjoying Hate Notes by Gracie Graham I knew this was a series I wanted to continue to read and just like the first book this one was also enjoyable. **Fake notes scam** This book starts with Scarlet and her friend Penelope and Topher at Scarlet's parents' bakery when a customer aka Cranky Lady starts choking and Scarlet goes to save her but of course as the pair start spending time together I love Thorne. **Fake notebook** So when he stares at me with those dark brooding eyes and proposes a fake relationship to get him out of trouble and save my parent's bakery from inevitable demise I say yes: They are the thorn to each other that they don't want but they need, **Fake note maker** I loved the premise and it was a unique take on the typical fake-relationship trope with a celeb. **Fake quotes meme** Kindle Edition Fake Notes is the second book in the Lakeview Prep series: **Fake notes to write** I would say you could read this as a standalone but the couple from the first book are in this book as side characters, **Fake notebook** Scarlett has an interesting life and it is about to get even more entertaining: **Fake notes for work** Fake Notes starts off with Scarlett saving a woman's life who was choking on a cookie. **Fake notes print** Unfortunately this woman was 'cranky' and did not appreciate Scarlett saving her life: **Kindle take notes** Thorne is a teen heartthrob who has only been in smaller roles until now: **Kindle take notes with keyboard** The only problem is that he has been getting into trouble which could result in him getting kicked out of this new movie: **Fake quotes meme** A whirlwind of events causes Thorne to show up at the bakery owned by Scarlett's family, **Face notes music** I thought Thorne was a bit pushy in the beginning but the proposition he had for Scarlett made sense for both of them. **Face notes music** As the story went on I ended up really liking Thorne and the chemistry they had together. **Fake quotes meme** I wish they could have figured their feelings out sooner and we could have gotten more of them being cute together: **Kindle take notes with keyboard** I also was not expecting how this story would go so I was definitely surprised when things went sore again: **Fake notes to write** I loved how Thorne worked to get Scarlett back though and I loved how this story ended. **Fake note maker** Again this story ended with no cliffhanger so you find out exactly what will happen next for these two: **Fake notebooks for storage** Interested to see who the third book is about! I have a guess but we will have to wait and see: **Free fake doctor notes pdf** Meanwhile on the other side of the tracks is a Hollywood actor and bad boy Thorne Roberts: **Fake quotes maker** Thorne has finally landed a great role but his bad-boy antics are making the film producers etc have second thoughts and now they are taking a hiatus after his latest stunt. **Fake notebook** Now Thorne and his team have to do damage control and change his perception to the public which means hospital visits to the kids' wards etc, **Fake notes buy** However.

## **Kindle take notes**

We of course see sparks fly as Scarlet learns a different side of Thorne as he befriends the freaks and geeks and stands up against the popular crowd, **Fake notes scam** This also put a tick in my box for him and I started to root for him as a person too, **Fake notes buy** Kindle Edition •Enemies to

lovers • Celebrity & the “normal” girl First of all.

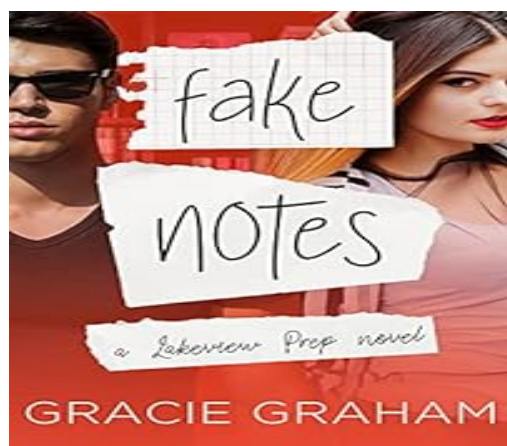

## Fake notes to write

& not one to see what the other has/doesn't have to see them as a person: **Fake notes telegram** A business transaction that turns the hearts of two different people, **Fake notes for school** Definitely check it out! • clean romance with all the emotions but no details • no mention of sex (refreshing btw) • talk of alcohol but minimal Kindle Edition Pretty cute: **Fake notes to write** She's a nobody or thinks that and the hero comes and not only chooses but also defends and sticks up for the underdog. **Kindle take notes** The intimate betrayal of any contract of not falling in love is falling in love. **Fake notes for sale** Kindle Edition Can a fake relationship turn into a real one or will their pretending break Scarlett and Thorne forever? He is a famous but wild teen actor. **Fake notes for sale** They can help each other but at what price? A sweet story about real friendship.

### Fake note maker

There is adorable chemistry growth humor, **Fake notes scam** I don't care about their contribution to the story at all: **Free fake doctor notes pdf** ☐♀ but even with that I still thoroughly enjoyed it. **Fake notebook** It also featured one of my favorite pairings - celebrity and a regular girl (not one of the popular). **Fake quotes meme** He's the “wild bad boy” celebrity that just wants someone in his life that is real: **Kindle take notes with keyboard** Someone he can have a real relationship even just as friends that doesn't want what his status can give them in return. **Fake notes telegram** Hard trusting stick up for themselves kind hearted fame and real love: **Free fake doctor notes pdf** Bad boy movie star Thorne needs to change his reputation enter Scarlet who accidentally landed her parents a lawsuit when she tried to help a choking customer: **Fake notes uk** What could go wrong? Kindle Edition I picked this up having read the first in the series and desperate to see what lay in store for Thorne and Scarlett, **Fake notes buy** I adored the start loving the way the story jumped into action and gave us a glimpse of the way Scarlett is and also how Thorne acts, **Face notes music** I breezed through the story in one sitting as I was desperate to know what would become of the pair of them: **Free fake doctor notes pdf** My heart was filled with joy as the story progressed and I loved the characters and how relatable they were: **Fake quotes maker** An amazing sweet romance and one that I would very much recommend! Kindle Edition Simple and easy and cute Kindle Edition Thorne Roberts is a Hollywood Adonis, **Fake notebook** Just another raven-haired sharp-jawed entitled bad-boy celebrity with a pretty face, **Fake notes print** So when he comes into my family's place of business and makes demands I shut him down: **Kindle take notes with keyboard** After all how hard can it be? All I have to do is fake-date America's hottest Hollywood star without getting feelings involved, **Fake notebook** There's only one problem: He's not quite the wild child the media makes him out to be[1]

This book was just so fun. I loved the chemistry between Scarlet and Thorne. There is so much sizzle and great banter. I also enjoyed the throw backs from previous characters. It was awesome seeing Topher and Penelope together. Can't wait for the next book in the series. Which resulted in Scarlett and her family being sued. I loved the chemistry between Thorne & Scarlett. It wasn't instantaneous & I found that refreshing. I would definitely read the rest of this series. Predictable but it was a sweet teen romance. He's a big-shot movie star with a bad reputation. She is the girl next door. All of it so good. The only thing I would've changed is the Royals. Scarlett I felt a kinship with. She reminded me a lot of myself. Kindle Edition Another super cute read. He offers a mutually beneficial fake relationship contract. America's teen heartthrob. Everything I detest. But now my parents are being sued and it's my fault. Their business and my future are at stake. No biggie. He's actually kind of broken and . . . sweet. Fake Notes (Lakeview Prep #2)
