

The Boy I Love to Hate (Hallisburg Prep #1) By Emily Lowry Discover Emily Lowry's first series Rumors and Lies at Ever High for perfect sweet romance reads filled with gossip high school drama falling in love for the first time 3 Everyone at Hallisburg Prep worships the ground Sutton Reilly walks on. And what the eff is a poetry internship?! I want an eating donuts for free or grabbing dollar bills outta thin air internship since bizarre internships/jobs are seemingly on offer now. What she's not surprised about is that the star QB is a know-it-all jerk that due to a very unfortunate and unlucky initial meeting they are now being punished together by having to plan the school's annual fundraiser. The banter between these two is kind of snarky quick and so fun to read! Mia may be interesting to verbally spar with but there's a girl Sutton has been talking to on the school's chat platform that seems to just understand him. - Because Mia was a self proclaimed introvert and threatened to have a bad attitude at first I was worried I'd be dealing with a chick who would be a crappy friend with a chip on her shoulder. But the book spun it like HE needed to apologize to HER for the mere appearance of cat-fishing her when he didn't even do that! The fact was SHE was the one who jumped to conclusions and was in the wrong. Super fast to read I stayed up past my bedtime to finish - just a nice beach read or something to pick up when you want to escape from the sad realities of the real world. Romance Rating: 4 5 stars I loved this story so much. Emily has this beautiful writing style that just flows so well. I've read them all and want to read them again for sure: This one is part of a new series but I can already spot couples that would be so good together. Sutton and Mia's story was a super cute one and maybe one of the best that Emily has written. Mia had every right to doubt Sutton's good mind even if it was a bit stereotypical: Whether that was while messaging through the school app or being partners for planning the fall fundraiser. I received a review copy and am voluntarily leaving a review. She's a huge fan of happily ever afters witty fun characters and fast paced sweet romances. Emily writes from her home in the Canadian Rocky Mountains and in her spare time she enjoys hiking with her dog baking cakes and paddleboarding. I hate everything about the school's star quarterback-he's nothing but a cocky arrogant class-A jerk: Our punishment? We're forced to work together on a school fundraiser, My only bright light is NeverFret-the sweet mysterious guy I talk to on the school's messaging app, He's Sutton Reilly's polar opposite and I think I'm falling for him. Right? The Boy I Love to Hate (Hallisburg Prep #1)I was a little annoyed with the I'm gonna be a poet talk, No mention of attending a University after graduation no mention of how bills will be paid, But like HOW? Unless mom and pop pay your rent not sure how that works: I know that romance novels are usually forgiven for being brainless fluff but even for YA Romance this was kinda stupid: HOW DOES A HIGH-SCHOOL-GRADUATE POET MAKE A LIVING?! Please enlighten me, 3 Stars 4 5 stars Young Adult Romance This enemies to more clean YA read is heartwarming and one that just gives you all the sweet feels, Mia has been sent to Hallisburg Prep for her senior year of high school amidst some family drama at home, While she had planned to just get through the year she finds herself pleasantly surprised. She likes her fun welcoming dorm mates and the classes are interesting at this school, These two just rubbed each other the wrong way almost immediately: Where Mia just wants to hide Sutton is popular and fully aware of the expectations that come with it: The real him since they don't even know each other's names. This is a super start to this series and I can't wait for more! The characters are likeable kind and friendly to Mia and that makes them even more endearing, Don't miss out on this easy to love and easy to read enemies to more story. Young Adult Romance Cute Quick ReadThis story was a cute quick read. I just didn't like how Mia judged and stereotyped Sutton from the jump. I get her experience with her ex wasn't great and she did the same with her friends: I can understand her being cautious even closed off but her being judgmental made me like her Less, Other than that it was a good read

Young Adult Romance This book was so freaking wholesome omg: The only reason I rated it 4 stars is because Mia got so fucking annoying towards the end of the book: Young Adult Romance

I liked this clean cute YA. Thankfully she lightened up and proved to be a relatively good friend that was willing to have fun with her dorm girls, Sometimes she was pretty likable and other times she was too hard and offish to be likable. He was confident teasing and good looking but had a sweet vulnerable side. - I loved Mia's girl friends! and I loved Sutton's boys too: - I really liked text convos in novels esp if they don't know each other: (If you're into that I'd suggest Kelly Oram's Cinder & Ella novel, )- I didn't like how she publicly humiliated him airing his vulnerabilities out when he had shared them with her in private: She broke his trust in a moment of anger and I was appalled, SHE needed to apologize! I needed her to truly grovel for forgiveness and a page of lyrics with no apology didn't cut it. I would have rated this higher if the misunderstanding had been dealt with in the way I was hoping, Content:Language- no swearing or blasphemy Sex- no sex scenes or innuendo: Cover- I love it! I read this on KU Young Adult Romance I didn't hate it I just didn't like it: I probably didn't enjoy it because Mia annoyed me for being so judgmental all the time. Sutton was really nice (to Mia) and didn't annoy me that much. It contains all the awesome ingredients for a great YA enemies to lovers romance: I loved how each character defies the stereotypes placed on them. Young Adult Romance super cute palette cleanser after reading some tough tomes of a heavy nature, This is your typical young adult romance book - though I like how the author uses the dual perspective of both the girl and boy nice alternative to one point of view. Also I thought she did a fairly good job of writing from a boy's perspective or what I imagine teenage boys discuss when they are alone (without girls): The story is cute and I like how the kids from this prep school are rich but the author keeps them very down to earth - not all Gossip Girl, This results in a faculty members catching them outside after curfew so they get detention and instantly their hatred for each other arises, With constant bickering the solution the school has is to partner them to organize the fall fundraiser so they can learn to get along: Only its difficult when they cant set aside their differences but they are secretly falling for each other as online penpals without realizing each other's identities: •\*Mia was so judgmental and based her entire opinion on jocks from that one encounter with her former boyfriend. When she found out Sutton was her penpal she used information he told her in confidence against him in front of everyone. I didn't like how quick she claimed to hate him when he really didn't do anything to her she was just mean without a reason: I dont know how Sutton fell for her because she was just rude, They kept calling each other enemies but really it was just a petty argument that started because he reminded her of his ex, Sutton's entire personality is hating football and not letting anyone in and at the end he quits and follows his dreams of being a musician, idk they are an artist couple ☹☹ I dont care about them to be honest they will probably break up eventually, ☹☹☹☹☹ it is fast-paced and nothing much happens because they hate each other for no reason Young Adult Romance.

. Every one of her books is incredible. Sutton had a depth to him. There was a lot more to the jock persona. He was a nice person overall. She was such a good heroine. She grew so much throughout this story. I loved her. Sutton and Mia were hilarious together. I loved the easy banter and chemistry between the two. I look forwards to the following books in this story. Young Adult.

Emily Lowry is true romantic. Everyone except me. The type of guy I stay far far away from. Until we're caught out of bed together after curfew. And it doesn't look good. Ugh. Because I'd never fall for the boy I love to hate, just empty chat about making a life as a poet. - I liked Sutton. All great side characters. That plot device was done alright in this case. But maybe that's just me. Thankfully the misunderstanding wasn't prolonged. - The epilogue was sweet. - The chemistry between them was mediocre. It was a quick read with nothing special. Besides that I don't have anything else to say. Young Adult Romance I really enjoyed this book. There is awesome chemistry. I highly recommend. Its totally clean and good for middle school age and up. \*•. ♡ ☐. ∙' ☐☐☐☐☐☐ ☐. ∙' ∙` ∙. ☐ ♡ ∙. go him! Meanwhile Mia was pursuing poetry
