

Ghostly Guidance (Jerry McNeal, #2) By Sherry A. Burton **Ghostly guidance book 2** Kindle Edition

Can u write without swearing I love your book but am a Christian so I do not want or need bad  
Maybe not put them as Christian but as a clean book Normally I would have turned off your book  
immediately Because of the bad words But a Ghost dog Andaman with gifts was just too much to  
pass up is there any way that you can write these books with them without cussing Maybe not put  
them as Christian but as clean book There are tons of books I would like to read westerns suspense  
military books but the cussing and the sex in them Or something I will not read Is there any way that  
your publish can Take those things out of books and allow us weird Christians to read them again as  
a clean book I know that publishers have already thought of this and for whatever reason decided  
not to do it But your book was really good and I'd love to read the next 2 but they're gonna have  
cussing in them Yours truly a frustrated reader stacy lnewcomb @gmail. **Book Ghostly guidance
