Their only clue: a list of seven names the leaders of the Brotherhood, Soon he finds himself on the run with Jack Sparks dragging him along, The List of Seven is a Sherlock Holmes pastiche written by one of the co-creators of Twin Peaks Mark Frost: In fact I kept imagining Benedict Cumberbatch as Jack Sparks and Martin Freeman as Doyle: I found Sparks' background incredibly interesting as I did his sociopathic brother Alexander: Doyle was a little more capable than Watson is normally portrayed a master of deduction rivaling Jack Sparks. This is a throwback to early steampunk not the style over substance steampunk that's so popular these days. There are appearances by Victorian figures like Bram Stoker Nigel Gull and Queen Victoria and also trains mummies zombies and various other Victoriana like seances and mediums, Again it reminds me of Tim Power's Anubis Gates and other works and also Jonathan Barnes' The Somnambulist and The Domino Men, The plot about the cult was nothing spectacular since most cults in fiction have the same goals. Are you familiar with the Chinese philosophy of feng shui? Never heard of it, I know their system of medicine is based on such an assumption Doyle added wondering what this had even remotely to do with Roman roads in Essex: Feng shui assumes the presence of these lines of force and attempts to bring human existence into harmony with them.
