

Farming and Forestry on the Western Front: 1915-1919 (Old Pond Books) By Murray MacLean
Farming and Forestry on the Western Front kindle direct Written by a farmer it is a highly informed description with plentiful photographs of the British Army's farming and forestry efforts close to the Western Front in northern France 1915-19. **Farming and Forestry on the Western frontburner d** A flurry of veterinary surgeons farriers etc catered to their needs and invalided or convalescent horses (eg those partially blinded by gas) were removed from the battle front and put on light farming duties,

Farming and Forestry on the Western frontbenchers

MacLean Murray Farming and Forestry on the Western Front: 1915-1919 (Old Pond Books)One of the best books I've read/looked at about WW1, **Farming and Forestry on the Western Front publishing** A vast amount of timber was needed for reinforcing trenches creating wooden walkways and roads on muddy battlefields building huts and shelters fences railway lines etc etc: **EBook Farming and Forestry on the Western frontier** Food and fodder from farms helped feed the troops and horses which made a vast and often ignored contribution to the war. **Book Farming and Forestry on the Western front pdf** There is quite a lot about the welfare of the horses which were highly valuable assets and were never shot unless severely wounded. **Farming and Forestry on the Western Front book pdf** The writers' captions to the many photographs are illuminating and informed pointing out details that only an expert in agriculture and forestry would be able to interpret accurately. **Book Farming and Forestry on the Western front 1930** This book sheds a completely different light on the British Army its food and timber needs supply chains horses and the war. **Farming and Forestry on the Western Front book review** Farming and Forestry on the Western Front: 1915-1919 (Old Pond Books)
