

Experiencing Narrative Worlds: On the Psychological Activities of Reading By Richard J. Gerrig

**Book Experiencing Narrative worldspan** Maybe that is the price one needs to pay for being interdisciplinary? Anyway an interesting compilation of results illustrating that humans have the basic cognitive mechanisms that underlie the reception of any text in a similar way. **Book Experiencing Narrative worlds hardest** 291 What does it mean to be transported by a narrative—to create a world inside one's head? How do experiences of narrative worlds alter our experience of the real world? In this book Richard Gerrig integrates insights from cognitive psychology and from research in linguistics, philosophy and literary criticism to provide a cohesive account of what we have most often treated as isolated aspects of narrative experience. **Book Experiencing Narrative worldship** He discusses the ways in which we are cognitively equipped to tackle fictional and nonfictional narratives; how thought and emotion interact when we experience narrative; how narrative information influences judgments in the real world; and the reasons we can feel the same excitement and suspense when we reread a book as when we read it for the first time. **Experiencing Narrative worldsbk 2022** Gerrig also explores the ways we enhance the experience of narratives through finding solutions to textual dilemmas, enjoying irony at the expense of characters in the narrative and applying a wide range of interpretive techniques to discover meanings concealed by and from authors:
