Very hard to find but a very interesting book. I tracked down a first printing and I'm glad I did. 311 Excellent time capsule of the early 1950s. Interesting and well written. Stewart Jr.) beginning with his 1922 Ph.D. dissertation at Columbia remain important in their field. {site\_link} Dust Cover. Ex Library book. Spine is separated from the book. Book is worn & has stains. U.S. 40: Cross Section of The United States of America George R. Stewart is just the best. S. 40 will develop and amplify. By whatever name. That's something of the story in itself. It's not U.S. 40 anymore. S. 40 for almost 50 years. 311 This book changed my life. And I read Stewart's US 40 over and over. Here was escape. Here was America. I'd never been west of Harper's Ferry. I didn't want to be a beatnik. The small towns of Ohio. The vendor of watermelons asleep in his wheelchair. The grainfields of Kansas. The shepherd in Colorado. Beaver dams. The basin and range of Nevada. Donner Pass and its chilling history. Holy moly. Now I live near the opposite end of US 40. Maybe it's because of this book. Or maybe it would've happened anyway. But oh man. 311 Good read about Americana. 311.
