

The Secrets of the Tarot: Origins, History, and Symbolism By Barbara G. Walker **Nonfiction The Secrets of the tarot reading** Her writing career has been split between knitting instruction books produced in the late 1960s through the mid 80s; and womens studies and mythology books produced from the 1980s through the early 21st C. **EBook The Secrets of the tarot card meaning** Her writing career has been split between knitting instruction books produced in the late 1960s through the mid 80s; and women's studies and mythology books produced from the 1980s through the early 21st C. **Crafts Hobbies The Secrets of the tarot card meaning** {site_link} Barbara G Walker is the sort of woman you imagine probably dances around her garden at midnight naked daubed in her own menstrual blood and wearing a tiara made of wheat. **The Secrets of the Tarot kindle store** Her bibliography is neatly divided between what you might call 'feminist spirituality' books (mostly to do with supposed pre-modern matriarchal goddesses) and strangely enough knitting designs which apparently are classics of their kind. **EBook The Secrets of the tarot card meaning** Not that I believe they allow you to predict the future - that would be mental - but I do find them a useful way of 'mind-mapping' big decisions when I'm in some confusing situation. **The Secrets of the Tarot ebooks** Among tarot aficionados this deck is notoriously little-used most people finding it too dark too uncompromising too explicit too woman-centric - basically all the reasons I like it so much. **The Secrets of the Tarot nonfiction definition** All the cards have these very stark archetypal designs which I find extremely appealing and every one seems to be about SEX! or DEATH! or SEX AND DEATH! For instance: To give you an idea of her rambling wise-woman feminist-hippy amiably nonsensical approach to interpretation here's her take on the princess of wands on the far right up there: The Philistine name for the fish-tailed White Goddess was Atargis. **The secrets of the tarot cards** The fish was a common symbol of the yoni [...blah blah...] that ubiquitous castration figure ever apparent in men's dreams and myths: the vagina dentata [...blah blah...] power of the female over the male [...] well-known principle in psychiatry that both sexes fantasize the vulva as a mouth [... etc. **The Secrets of the Tarot nonfiction text**]As you can probably see she takes a slightly cavalier approach to comparative mythology but the results are often weirdly productive and provocative or at the very least morbidly fascinating. **Kindle The Secrets of the tarot** I must have had this deck since I was 15 or 16 (although I don't think I got the book itself till several years later) and a lot of the images in here are almost a natural part of my thought process now. **The Secrets of the Tarot Religion spirituality meaning** 9780062509277 The subtitle essentially sums up this book although my primary reason for buying it was less as a guidebook for the Barbara Walker Tarot Deck but merely to search for any symbolic insight into the deck beyond the Little White Book. **The Secrets of the Tarot kindle paperwhite** What this book really does well is trace the pre-Christian origins of the Tarot & how the Church systematically went out of it's way to demonize the Tarot & any Pagan competition. **The Secrets of the Tarot nonfiction definition** I wish this would have been one of the 1st books I had read on the Tarot & I would recommend this book to anyone new to the Tarot in addition to the Rachel Pollack books. **The secrets of the tarot cards** At least Walker doesn't claim they go back to Ancient Egypt although she does link them to the gypsies another dubious claim to say the least--since Tarot Cards were known in Europe before the Gypsies arrived! The Secrets of the Tarot ebooks

Fully illustrated with all-new color versions of the complete traditional Tarot deck this is an appreciation of the history and meaning of the cards. **The Secrets of the Tarot ebook pdf** The Secrets of the Tarot: Origins History and Symbolism Barbara Walker studied journalism at the University of Pennsylvania and then took a reporting job at the Washington Star in DC, **The secrets of the tarot cards** During her work as a reporter she became increasingly interested in feminism and womens issues: **The secrets of the tarot cards** Barbara Walker studied journalism at the University of Pennsylvania and then took a reporting job at the Washington Star in DC. **The secrets of the tarot cards** During her work as a reporter she became increasingly interested in feminism and women's issues. **The Secrets of the Tarot ebooks** I find her very endearing in a sort of 1980s west-coast-US kind of way. **The secrets of the tarot cards** This book and the accompanying deck belong to the former group (although if she came out with a knitted tarot I would definitely get it). **The Secrets of the Tarot kindle store** I used to use tarot cards quite a lot and this was my deck of choice, **Kindle The Secrets of the tarot reading** At Der she was called Derceto "Whale of Der" the great Fish-mother who swallowed the phallic god Oannes prototype of the biblical Jonah: **EBook The Secrets of the tarot deck** Even Judeo-Christian Scriptures admitted that Jonah's whale was female and he spent three days in her "womb" (not stomach) prior to his rebirth: **Kindle The Secrets of the tarot** Her particular brand of proto-Wiccan gynocentrism is unfashionable these days but I find it very appealing and actually rather creatively stimulating. **The Secrets of the Tarot kindle reader** I always kind of liked her & worked with this deck quite well for a while: **The book of tarot a spiritual key** There are indeed some insights tho it's mostly confined to the Minor Arcana: **The Secrets of the Tarot ebook download** 9780062509277 Tarot cards have intrigued me every since I've seen a deck: **Kindle The Secrets of the tarot yes** They're so pretty and mysterious and so different yet so closely related in look to our familiar playing cards and so many of the decks are rich in symbolism. **Religion Spirituality The Secrets of the tarot free** I started collecting decks and even reading them for friends for fun even though I'm a thorough-going rationalist and don't believe they can be tools of divination: **The secrets of the tarot cards** I also don't believe in a lot of nonsense promulgated about their origins: **Crafts Hobbies The Secrets of the tarot reading** The Wiki will tell you there's just no evidence of the Tarot either literary or surviving cards before the early 15th century, **The secrets of the tarot cards** It covers each card of the Major and Minor Arcana devoting pages to each. **The Secrets of the Tarot kindle paperwhite** It's pretty and with the Tarot I'm all about the shiny! 9780062509277.

. They're an entertaining free-association tool. Her Syrian name was Astarte. Her Babylonian name was Ishtar. The myth of the swallowing was really a sexual allegory. But it's hard to review this objectively. Which is perhaps a little concerning. 9780062509277 Walker's feminine-centric research is often criticized.) All that said I do find this book fun and informative. And I like the deck featured in the book
