I can't wait to get to the next book. He watches over her. Her descriptions are crisp and easily imagined. A co-worker dies in the fire. The fire appears to be arson. Soon another death occurs. It looks like secrets are being guarded. I did not know who the murderer was until the end. This is a very good series that I will continue with. They go to different locations in their series also. Her friend Joe Wolf Mantooth will be her assistant. I hope every book doesn't have such an emphasis on it. I cannot get over how much I love this heroine. They are competently written too. The ending actually surprised me. This series is full of them. Did Dr. And almost stirs up a romantic interest . or two in the bargain. Almost. D Bernthal. Relics (Faye Longchamp #2)
