

Liang and the Magic Paintbrush (Reading Rainbow Books) By Demi

Whatever he painted would come to life and he also must avoid the evil emperor at all costs! "Liang and the Magic Paintbrush" is truly a beautiful tale about the consequences of being greedy that many children will love for years! Demi had made this book completely beyond amazing with her beautiful illustrations and her dazzling writing of this ancient Chinese folktale. Demi makes this book extremely exciting as Liang is immediately thrown into trouble when the Emperor forces Liang to come to his palace to do his evil biddings with the paintbrush. I loved the way that Demi made Liang into such a kind-hearted and clever character as he truly uses his magic paintbrush for good intentions such as helping out his family and friends and it is that aspect of Liang's personality that I really enjoyed since I also love helping other people during their time of needs too. I also thought that the idea about a magic paintbrush bringing paintings to life is truly creative and amazing as I never would have read about an object that would bring drawings to life.

"Liang and the Magic Paintbrush" is a truly magnificent book for children who love Chinese folktales and love to learn about the consequences of being too greedy. (And he actually used it as a tool to create pictures for sale to earn money.

Is there not anything that Demi cannot do? "Liang and the Magic Paintbrush" is a Chinese folktale by Demi that is about a young boy named Liang who receives a magic paintbrush from a magical man and every time Liang painted with the paintbrush although that does seem to be the norm for many fairy tales. Demi's illustrations are extremely beautiful especially the way that Demi drew the bamboo trees in luscious green colors and I also loved the image of Liang himself as he has dark hair and small eyes and he is always shown wearing a beige colored robe which clearly makes him look distinguished and innocent. I could also draw a pony so I could ride it I hope LeVar knows how to speak Chinese You know what I would bring home that would be really outrageous? I would bring home a star put it in my room for a huge night light. Source: {site_link} Wikipedia {site_link} I think we've read different versions of this one before but since we're studying Marco Polo and the Silk Road and China again it seemed like a good idea to read this one. I feel fate put this book in my hands at a time when I am feeling drawn to Buddhism since its author Demi has been a practising Buddhist for 30 years and she writes about entering a beautiful land of lights via meditation has inspired much of her creative work. I would recommend this book to children ages five and up since the Chinese names might be too difficult for smaller children to read through: English I've read or heard multiple variations of this Chinese folktale. (It's a key element of Grace Lin's Where the Mountain Meets the Moon series: I appreciated how Liang used his paintbrush to create necessary items for the poor of his village rather than just seeking to create wealth for himself.)

#passportaroundtheworld #china English This is my second favorite Demi book, Both Laurence Yep and Robin Muller also wrote versions of this story with the same title, Recommended!! English I found these notes from 9/30/02 Monday afternoon/evening Watching Reading Rainbow the featured book was Liang and the Magic Paintbrush. You said: I wish I had a magic paintbrush so I could paint on wings and feathers so I could fly. What I would like to take home that's really outrageous is a baby duck billed dinosaur. English

Liang has a magic paintbrush and it brings to life whatever he paints, He tries to use it for good to help the poor but an unscrupulous emperor tries to seize this power for himself : English I love Demi and her unique 'perspective' open space and accessible stories. What would you paint if you could make it real? A good story to start conversations, English I found this delightfully illustrated children's book in the Little Free library today and am completely charmed by the illustrations: English Lacking the luminous print quality of Demi's other books this one is just sortof flat; something which is particularly sad for this particular story, English I love how Liang's first instinct when learning what his magic paintbrush could do was to make things for his friends, Grrrr to the mean art teacher who was rude to a beggar who wanted to learn. If the emperor could take away the paintbrush why couldn't the army? English.
